REVISED SITE HEALTH AND SAFETY PLAN (SHSP) FOR PHASE 1B WORK AT 881 HILLSIDE

Environmental Restoration (ER) received Chem Nuclear Geotech's revised Site Health and Safety Plan (SHSP) for Phase 1B work at 881 Hillside incorporating EG&G comments. ER has accepted the plan for Phase 1B work. The plan meets the minimum health and safety requirements set forth in the ER Health and Safety Program Plan. The final step in the health and safety review process is the review of Geotech subcontractor SHSP's. These must be received and concurred by EG&G before start of work. They should be sent to Meredith Brogden, T130B, RFP.

A handwritten signature in cursive script, appearing to read 'J.P. Greengard for'.
